

Unaudited Condensed Interim Financial Statements of

LABRADOR TECHNOLOGIES INC.

Six months ended April 30, 2017 and 2016

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of condensed interim financial statements, they must be accompanied by a notice indicating that an auditor has not reviewed the financial statements.

The accompanying unaudited condensed interim financial statements of Labrador Technologies Inc. (the "Company") have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these condensed interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of condensed interim financial statements by an entity's auditor.

Labrador Technologies Inc.

Notes to Condensed Interim Financial Statements

Three months ended April 30, 2017 and 2016

(Unaudited)

(expressed in Canadian dollars)

1. Reporting entity:

Labrador Technologies Inc. (the "Company") is a company domiciled in Alberta, Canada and is incorporated pursuant to the Business Corporations Act (Alberta), with its common shares listed on the TSX Venture Exchange under the symbol "LTX". The address of the Company's registered office is 350 - 229 11th Avenue S.E., Calgary, Alberta, Canada T2G 0Y1. The Company is engaged in the research and development and marketing of data retrieval technology for customers.

2. Basis of preparation:

a) Statement of compliance:

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB").

The condensed interim financial statements were authorized for issue by the Board of Directors on June 29, 2017.

b) Basis of measurement:

The financial statements have been prepared on the historical cost basis.

c) These condensed interim financial statements are presented in Canadian dollars, which is the Company's functional currency.

d) Use of estimates and judgments:

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies, the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, costs and expenses for the period. Estimates and underlying assumptions are based on historical experience and other assumptions that are considered reasonable in the circumstances and are reviewed on an ongoing basis. Actual results may differ from such estimates and it is possible that the differences could be material. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The estimates and underlying assumptions are reviewed on an ongoing basis and are the same as those disclosed in the Company's October 31, 2016 audited financial statements.

Labrador Technologies Inc.

Notes to Condensed Interim Financial Statements

Three months ended April 30, 2017 and 2016

(Unaudited)

(expressed in Canadian dollars)

3. Going concern:

In recent years, the Company has raised capital in order to fund the development of its web-based oil and gas data retrieval software products, eTrieveer and wellTrieveer.

There is a material uncertainty that may cast a significant doubt about the appropriateness of using the going concern assumption because the Company's ability to continue as a going concern is dependent upon its ability to generate sufficient cash to settle its existing liabilities and fund its strategic business plan. To date, the Company has minimal revenue and is now, in the short term, dependent on raising sufficient capital to realize its assets and discharge its obligations, including the working capital deficiency of \$3.4 million as at April 30, 2017 (2016 - \$2.8 million). In addition, the Company will continue to pursue opportunities to license its eTrieveer software and to generate revenue from the Company's new product, wellTrieveer. Revenue realized through these additional sources is expected to assist the Company in realizing its assets and discharging its obligations.

At the period end, the Company had cash of \$11,736, no long term debt and a working capital deficiency of \$3,371,564. During the six months ended April 30, 2017, the Company incurred a net loss of \$279,401 (2016 - \$383,831) and used cash in operations totaling \$129,677 (2016 - used \$233,965).

Management believes the going concern assumption is still appropriate for these financial statements but is dependent upon the successful raising of sufficient capital in the future as required achieving and sustaining profitable operations, as well as the continued support from related parties and trade and other creditors. There can be no assurance that the steps management is taking will be successful. This assumption will be reviewed on an ongoing basis by management and the Board of Directors. If the going concern assumption were not appropriate for these financial statements, adjustments would be necessary to the carrying value of assets and liabilities, reported revenues and expenses and the classifications used in the statement of financial position.

4. Loans Payable:*a) Related Party Transactions:*

As at April 30, 2017, the Company had \$1,663,584 (2016 - \$1,336,439) of loans payable to certain officers, directors, former directors, and shareholders. These loans bear interest at 12% per year, are unsecured and due on demand. Total interest accrued and payable as at April 30, 2017 was \$506,134 (2016 - \$324,971). During the six months ended April 30, 2017 additional advances on these loans of \$133,145 (2016 - \$233,713) were made to the Company.

Labrador Technologies Inc.

Notes to Condensed Interim Financial Statements

Three months ended April 30, 2017 and 2016

(Unaudited)

(expressed in Canadian dollars)

5. Share Capital:

a) Authorized:

Unlimited preferred shares, series A and B, none of which were issued at April 30, 2017, and unlimited common shares.

b) Common shares issued:

	Six months ended April 30, 2017		Six months ended April 30, 2016	
	Number of Shares	Amount	Number of Shares	Amount
Common Shares				
Balance, beginning of period	112,926,137	\$10,374,250	112,926,137	\$10,374,250
Balance, end of period	112,926,137	\$10,374,250	112,926,137	\$10,374,250

c) Stock option plan:

The Company has a stock option plan for its directors, officers, consultants and employees. Option vesting periods range from ½ upon grant & ½ after 6 months, and 1/3 immediately, 1/3 after 12 months, 1/3 after 24 months. Options expire 3 years from date of grant. There are no current stock options outstanding and exercisable under this plan.

There are no exercisable options at April 30, 2017.

d) Per share amounts:

The weighted average number of common shares outstanding during the six month period ended April 30, 2017 was 112,926,137 (2016 – 112,926,137).

There was no dilutive effect of options and warrants for the six months ended April 30, 2017 and 2016.

6. Financial instruments and financial risk management:

i) Classification of financial instruments:

	Classification	Measurement
Cash and cash equivalents	Held for trading	Fair value
Trade and other receivables	Loans and receivables	Amortized cost
Trade payables and accrued liabilities	Other financial liabilities	Amortized cost
Loan payables	Other financial liabilities	Amortized cost

Labrador Technologies Inc.

Notes to Condensed Interim Financial Statements

Three months ended April 30, 2017 and 2016

(Unaudited)

(expressed in Canadian dollars)

ii) Determination of Fair Values

The following table analyzes recurring assets and liabilities measured at fair value in the statement of financial position. The different levels are defined as follows:

- Level 1 - determined by reference to quoted process in active markets for identical financial assets and liabilities;
- Level 2 – inputs to the valuations, other than quoted prices, are observable for the financial assets and liabilities, whether directly or indirectly; and
- Level 3 – inputs to the valuations are based on inputs that are not observable for the financial assets and liabilities.

Recurring Measurements	April 30, 2017		
	Level 1	Level 2	Level 3
Financial Assets			
Cash and cash equivalents	\$ 11,736	\$ –	\$ –

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer. During the three months ended April 30, 2017, there were no transfers between fair value hierarchy levels.

Financial instruments that are not measured at fair value on the condensed interim statement of position are represented by accounts receivable, accounts payable and accrued liabilities and Loans payable. The fair values of accounts receivable, accounts payable and accrued liabilities, and loans payable approximate their carrying values due to their short term nature.

Overview

The Company is exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives for growth. The main objectives of the Company's risk management process are to ensure that risks are properly identified and that the capital base is adequate in relation to those risks. The principal financial risks to which the Company is exposed are described below.

a) Interest rate risk:

Interest rate risk is the risk that fair value of a financial instrument or its cash flows will fluctuate as a result of changes in interest rates.

The Company maintains its short-term deposits in instruments that are redeemable at any time without penalty, thereby reducing its exposure to interest rate fluctuations.

The loans payable bear interest at a fixed rate of 12% and are due upon demand, thus the cash flows are not subject to interest rate risk.

Labrador Technologies Inc.

Notes to Condensed Interim Financial Statements

Three months ended April 30, 2017 and 2016

(Unaudited)

(expressed in Canadian dollars)

b) Liquidity risk:

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they fall due or can do so only at excessive cost. Given that the Company does not have significant internally generated cash flow, there are inherent liquidity risks, including the possibility that additional financing may not be available to the Company on a timely basis. Refer to note 3 for details regarding the going concern assumption.

At April 30, 2017, the Company has cash balances of \$11,736 and a working capital deficiency of \$3,371,564. The Company has financial liabilities of \$3,387,162 classified as current liabilities.
